Pando Beverage Cooler

Enjoy your moment

Pando is one of the leading manufacturers of premium level wine coolers. For already many years, we are experts in the demanding task to ensure a perfect cooling and preservation of fine wines via a wide range of high-end wine coolers for residential use.

The great knowledge we have acquired over the years with wine coolers, combined with Pando's commitment to serve our clients and to focus on innovation, has led us to expand our line of products, so far specialized in the cooling of fine wines, towards a new product category: The **Pando Beverage Cooler**.

The new range that has been specially designed to always maintain, in an orderly and very effective way, your most select drinks at just the right temperature.

Pando Beverage Coolers are perfect for any residential home or client, who likes to enjoy those unique moments, where having a cool, refreshing drink becomes a great experience.

A woman with long brown hair, wearing sunglasses and a white tank top, is smiling and holding a drink with a straw. She is standing by a swimming pool, and other people are visible in the background.

Pando Beverage Cooler

The perfect combination of elegance and comfort

In its interior we would like to point out 4 separate areas, completely adaptable to any typo of bottle or beverage.

- 1 The extractable metal top shelf with telescopic guides is great for placing cans vertically.
- 2 The removable metal middle shelf with fixed guides is ideal to store your beverages horizontally. It is **VERY VERSATILE**, because it can be removed very easily, and once removed, you can place even tall bottles into the lower container drawer.
- 3 The extractable metal container drawer with its sliding guides allows to place all types of beverage and containers sizes.
- 4 Fixed bottom shelf with capacity to store 6 beverages horizontally.

1

1 Temperature zone from +2°C to +12°C

The top metal shelf incorporates an extra glass shelf

Blue LED, digital display with temperature indicator and controller, as well as Open Door Alert.

3

Bottom container drawer with mobile separators

Silent and very effective compressor that cools quickly and maintains a stable temperature

Interior lighting using blue LED strips with high energy efficiency

Very spacious interior with a capacity to hold up to 114* containers.

Its elegant, removable black shelves are very resistant and highly functional.

(* Exact amount depending on distribution and type of containers placed.

We would like to highlight the lower Container Drawer that allows to store, in an upright position, all kind of bottles and containers with a height of 300 mm. If you wish to place taller bottles, you can easily do so, you only need to take out the removable, intermediate shelf.

Incorporates telescopic extraction guides that permit an extraction of 75%.

The **Pando Beverage Cooler** incorporates a new, innovative system to place and organize a wide range of bottles and containers in its lower container drawer. (See Fig. ③ previous page)

Move the separators of the Container Drawer according to your specific needs, both, from right to left, but also from front to back and vice versa.

Thanks to its fully flexible, mobile separators, all beverages, bottles, cans and containers can always be kept in a vertical position, and thus guaranteeing safety, cleanness and taking full advantage of the maximum of its capacity.

The result is an always completely tidy and organized container drawer.
